

Sustainable travel – in rural communities?

Transport is 27%
of UK domestic
greenhouse gas
emissions (2019)

Never mind the jargon
– what about clean air,
good health, inclusion
for people who don't
drive?

Transport is 48%
of West Devon
carbon emissions
(vs homes 21%) (2018)

Your view on our local transport choices?

What's good?

What's wrong?

What should change by 2025? 2030?

Pathway to sustainable travel?

Walkable places

Network of cycle routes

Better bus services

Rail connections

Vehicle sharing

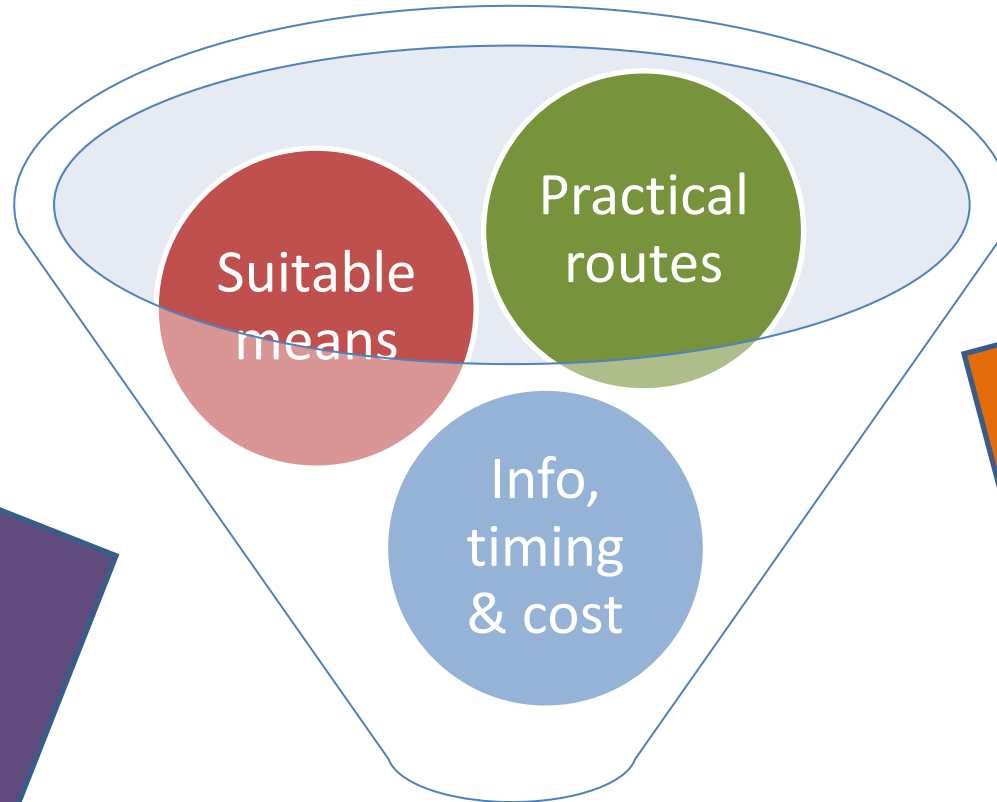

Electric vehicle infrastructure

PLANNING THAT CONNECTS PEOPLE

Raising awareness of low carbon options

Identifying barriers

Lobbying planners and providers

How we travel

travel@transitiontavistock.org.uk

Transition Tavistock Travel Action Group

Next meeting 25th Nov, 2.30 Anchorage Centre

Book online www.transitiontavistock.org.uk/travel

Advocating for ways of getting to and around the Tavistock area that are better for people and planet than dependence on fossil fuels.

Public
transport

Walking &
cycling

Low
emission
vehicles
